

Warm Up: Solve each of the equations below

$$\begin{array}{l} \cancel{-8}x = 72 \\ \hline x = -24 \end{array}$$

$$\begin{array}{l} 17 = x - 5 \\ +5 \quad +5 \\ \hline 22 = x \end{array}$$

$$\begin{array}{l} \frac{c}{8} = 2 \\ \times 8 \quad \times 8 \\ \hline 16 = c \end{array}$$

Scavenger Hunt Directions:

1) Start at any station (no more than 2 people per station)

2) Complete the math at the station & show your work

3) Look for your answer on the top of another station (complete that station next)

4) Continue until all stations are complete
