

Combining Like Terms
Day 2

Simplify the following expression completely.

$$4(x^2 - 6x + 8) - 6(x^2 + 3x - 5)$$

$$\cancel{4x^2} - \cancel{24x} + 32 - \cancel{6x^2} - \cancel{18x} + 30$$

$$-2x^2 - 42x + 62$$
